KALVACHERLA TEJA
Contact No: +91 99517 24205
Email ID: kalvacherlateja@gmail.com

Career Objective:

Self-motivated, highly passionate, and hardworking fresher looking for an opportunity to work in a challenging organization to utilize my skills and knowledge to work for the growth of the organization.

Technical Proficiency:

Cloud Platforms	Azure(VM'S,VNET,ALB,IGTW) and AWS (VPC, EC2, S3, CloudFormation, IAM, ALB, Lambda, CloudWatch, CloudTrail)
DevOps Tools	Container Orchestration: Kubernetes Containerization: Docker CI/CD Pipelines (GitLab CI/CD, Jenkins) Basic automation using Shell scripting, Terraform, Ansible
Web & Application Servers	Nginx Web Server, Tomcat
Programming & Scripting	Shell Scripting
Operating System	Unix - Linux RHEL 8 Windows 11
Monitoring	Grafana, Prometheus

Education Qualification:

Degree/Course	**Institute-Location**	**Year of Passing-Percentage**
Bachelor of Technology in Electronics & communication Engineering	Ace Engineering College, Hyderabad, Telangana, India	2024-CGPA-7
Board of Intermediate Math's, Physics & Chemistry	Narayana Junior College, Hyderabad, Telangana, India	2020-93.5%
Central Board of Secondary Education (C.B.S.E)	Greenwood High School, Warangal, Telangana, India	2018-72%

Trainings and Certifications:

- Have a professional training knowledge in **Microsoft Azure Administration** from "V Cube Software Solutions", Hyderabad
- Have a professional training knowledge in **AWS Administration** from "V Cube Software Solutions", Hyderabad
- **Currently preparing for Azure Fundamentals AZ-900 and ITIL 4 certifications.**

Internships:

TECHPLEMENT - AWS Cloud Intern Feb 2025 – Mar 2025

- Deployed WordPress on AWS in Monolithic & Microservices Architectures. Configured security groups, optimized MySQL access, and set up a custom homepage. Ensured security & scalability, resolving connectivity issues.

- Developed modular AWS CDK templates for provisioning cloud infrastructure including EC2, S3, IAM, VPC, CloudWatch, and Security Groups.
- Automated deployment of WordPress and MySQL using configuration-driven CDK stacks (JSON/YAML), ensuring reusability and scalability.
- Implemented CDK bootstrap, synth, deploy, and destroy workflows for lifecycle management of AWS resources.

PEARL THOUGHTS - DevOps Engineer Intern April 2025 – May 2025

- Designed and implemented a complete CI/CD pipeline using **GitHub Actions** for Strapi CMS, automating the build, test, and deployment lifecycle.
- Provisioned and managed infrastructure using **Terraform** on **AWS**, including **ECS Fargate**, **ALB**, **ECR**, **IAM**, **VPC**, and **CloudWatch** for monitoring and logging.
- Built and pushed **Docker images** for Strapi with secure secrets management via GitHub Secrets and environment variables.
- Deployed Strapi containers with **auto-scaling** and centralized **CloudWatch logging**, ensuring high availability and performance.
- Configured **CloudWatch Alarms** and ECS metrics to monitor CPU and memory usage, maintaining application health.
- Gained hands-on experience in **IaC**, **CI/CD**, **containerization**, and **AWS Cloud Services**, laying a strong foundation in DevOps and Cloud Engineering.
- Implemented Canary **Blue/Green deployment** strategy with **AWS Code Deploy**, **ECS**, and **GitHub Actions**, ensuring zero-downtime rollouts and rollback capabilities.

Project Title: 3-Tier Architecture Deployment using Azure:

- Worked as administrator to setup the 3-tier application with team of 3 people
- I have configured 3-layer domains called Web, App and Database
- Coding team members has developed Order web application using Java
- Performed the End2End connectivity from Web-App and App-DB
- Created application Ids in the database for the team to validate the front-end view and maintenance
- Successfully Coordinated activities between team members
- Performed application logs auto clean up scheduled every day
- Performing health check monitoring
- Duration: 3-6 months
- Technologies used:
  - Microsoft Azure
  - JAVA 17
  - Web Server (Nginx)
  - App Server (Tomcat)
  - Database server (MySQL)
  - Linux RHEL 8
  - Putty / WinSCP Tool
  - Azure health Check
